SUGAR NOT NEEDED

BODY DOES NOT REQUIRE BUT VERY LITTLE SWEETS

TO AVOID RATION CARD

Just Make Conservation a Matter Between You and Your Conscience—Some Meals That Save Sugar

The Allies need sugar.

The time has come for us to face the fact that WE DO NOT NEED SUGAR. Food experts tell us that the body does not require such sweets as honey and syrups.

But if we feel that we must have something sweet once in a while, we have at our command an abundance of molasses, syrups, sorghum, honey and maple sugar, as well as dried and fresh fruits.

The Allies are not asking for very much sugar. Italy's ration is one pound per person per month; France's 1½ pounds; England's 2 pounds. Even these quantities are not always obtainable.

What the United States food administration is now asking of the people over here is to put themselves upon a ration of TWO POUNDS PER PERSON PER MONTH. This does not in any way limit the amounts of syrups or honey that one may have. So, after all, it's not very hard, is it?

Certainly it is fair. Why should we who have gone into the struggle literaly "for good," enjoy anything more than those who have been "holding" for three long years?

There is one thing which the American people must prove to be unnecessary, and that is the ration card system. This nation likes to do things because it chooses to, not because it is policed into doing them. This "ration" has come in the form of a request. So it's a matter between you and your conscience. You are on your honor. Don't buy more than your share. Buy less if you are clever enough to manage with less.

Three Meals That Save Sugar.

Saving sugar day by day is what will count in the long run. And the best way to save sugar the United States food administration knows is simply not to use it. See how nicely it works for a three-meal day.

Sugar Is Needed Abroad.

The time has come when we must in so far as we are able share and share alike with the Allies. We can and we must cut down our consumption of sugar in order that the meager rations of France and Italy may be maintained. Why not try to eliminate sugar from desserts? Use fruit in season for at least three dinners each week. For the others the U. S. food administration suggests the following:

Chocolate Pudding.

1 quart milk, 2 oz. chocolate, 1 cup syrup, 1-3 cup cornstarch, 2 eggs, 1 teaspoon vanilla.

Heat milk in a double boiler. Add chocolate and syrup. Moisten cornstarch with a little of the cold milk and add to hot mixture. Stir constantly until thick. Add slightly beaten eggs and vanilla and remove from heat. Turn in molds and chill.

Lemon Jelly.

2 tablespoons plain gelatin, 1-2 cup cold water, 2 1-2 cups boiling water, (2 cups boiling water if syrup or honey is used), 1 cup honey or 1 1-3 cups corn sugar or 1 2-3 cups syrup, 1-2 cup lemon juice.

Soak gelatin in cold water, dissolve in boiling water, add sweetening and lemon juice and strain. Turn into mold and chill.

Vanilla Ice Cream.

1 quart thin cream, 3-4 cup honey or 1 1-4 cups syrup, 1 1-2 tablespoons vanilla.

Mix ingredients and freeze. Serve plain or with fruit sauces.

Chocolate Fruit Cookies.

1-4 cup fat, 3-4 cup syrup, 2 tablespoons grated chocolate, 1 egg, 1 2-3 cups barley flour, 1 teaspoon baking powder, 1-2 cup

Beat the fat and syrup together thoroughly and add melted chocolate and egg, nutmeats, 1-2 cup raisins chopped fine. Add dry ingredients sifted together, then fruit. Drop from spoon on a floured tin and bake in a hot oven until brown.

FLAG FOR THE HOME GUADRS

Daughters of Revolution Present Gift to Company C at Assembly Tomorrow Night

A handsome flag, mounted on a maplewood staff, surmounted by a gilt eagle, will be a gift from the Maryville chapter, Daughters of the American Revolution, to Company C, Home Guards. The flag will be presented tomorrow night at the assembling of the Guards at their armory at 7:30 o'clock, Captain Harry Snyder receiving the gift for the company.

Mrs. Will J. Montgomery, regent of the chapter, will make the formal presentation and a committee from the chapter, which includes the officers, Mrs. Joseph Jackson, Jr., Mrs. L. C. Gann, Miss Katherine Helwig, Miss Elizabeth Leet and Miss Mary Q. Evans, and Mrs. Ed G. Orear and Miss Ruth Montgomery, the members appointed to select and purchase the flag, will attend the ceremony.

The flag is 5x8 feet wool bunting and beautifully mounted.

THE PEACH CROP IS SHORT

California Product That Last Year Sold for $2.25 Bushel Now Brings From $4.00 to $5.25 a Bushel

St. Louis, Aug. 15.—Peaches have brought higher prices this summer than ever before, according to statements of several produce dealers on commission row here.

Yesterday five carloads of California peaches were disposed of in 20-pound boxes, each box being sold for $1.40. Because of the great shortage prices this year have ranged from $4 to $5.25 a bushel, against 75 cents to $2.25 last summer.

Ordinarily about 90 per cent of the California peach crop is dried or canned in this state, but brokers this year are making large profits by selecting extra good peaches, packing them in boxes and shipping them to eastern markets.

FEAR MEETING 'CRAZY' YANKS

Befuddled Huns Are Not Anxious to Encounter the Americans After Their First Experience

Pittsburgh, Pa., Aug. 15.—That the Americans present entirely new problems to the slow-thinking Germans is indicated by a letter from Sergeant B. S. Watts to his father here. "German prisoners that talk English tell us that the Americans are crazy," he writes. "They don't know what they are doing and are liable to come over the top any time and break up the natural order of things.

"Before the Huns started this open warfare the whole affair was cut and dried. First the Germans would put over a barrage and then attack, and then the French would take their turn. But the marines are liable to go over any time, barrage or no barrage, which upsets the placid German very much and instils the fear of the American in him. They never want to face the Americans more than once.

"You ought to see the American kids parading by. Some eighteen-year-old American will come piking up the road chasing four or five 'square-heads' (Germans), and the kid is all smiles when he tells how the whole smear of Huns were on their knees hollering 'kamerad.' These marines are the most enthusiastic fighters in the business.

"Right back of our position are about twenty acres of potatoes, but whenever anyone tries to hoe them along comes a bunch of shrapnel, so there is no chance of loosening the ground. It is a shame, all the stuff that is planted up here; wheat ready to be harvested now, and potatoes everywhere, but no one to take care of the crop, as all the civilian population fled when the Germans came down."

ST. LOUIS NEARS MILLION.

St. Louis, Aug. 15.—St. Louis is within 75,850 of the million population mark, according to the statistics just compiled for the city directory. It contains 369,660 names. Using the multiple of two and one-half persons to each family, the city has a population of 924,150. This multiple, while not officially recognized by the government, has been used by every city in the United States since 1910.

DEALERS ON CARPET

PENALTIES IN SIGHT FOR VIOLATION OF SUGAR RULE

FOOD ADM. CALLS COURT

Some Fifteen Dealers Are Summoned to Appear and Explain Actions In Selling Excess Quantities

County Food Administrator F. P. Robinson has called a session of court tomorrow at his offices at which some fifteen or twenty dealers have been called to explain—if they can—why they have violated the sugar rules in selling more than the amount permitted to consumers. Mr. Robinson says there have been numerous violations of the sugar rule and that trouble is in store for those who have been guilty of the offense.

"I have tried in every way possible," said Mr. Robinson this morning, in speaking of the matter, "to have both dealer and consumer advised of the rules, both by written letter and by notices in the newspapers and I can see no excuse for any dealer not knowing the rules. If it has been on account of carelessness or because the consumer has talked them into selling more than the rule permits they are certainly in trouble. There is no leeway given me in the interpretation of the food rules and it is my business to see that they are strictly observed by all alike."

Mr. Robinson says the sugar problem has given him more trouble than any other and that he is besieged daily by consumers who want permits to purchase additional amounts of sugar, claiming it is to be used for canning. Mr. Robinson is giving very few permits, and when he does takes pains to state that the permit does not assure the consumer that he or she will get the sugar, as dealers are limited in their supply and are not permitted to sell but the amounts specified—two pounds per month per person.

From the information at hand it is likely that there will be some penalties handed out at the food administrator's court tomorrow.

FOR BETTER RURAL SCHOOLS

County Superintendents at Sedalia Meeting Plan to Canvass State In Interest of Efficient Schools

Superintendent Bert Cooper returned today from Sedalia where he attended a meeting, called by state superintendent, Uel Lamkin, of county superintendents, when plans were made for a two weeks campaign in November for better rural schools. Mr. Cooper was made a member of an executive committee of superintendents in connection with the campaign, the other members being T. R. Luekirk of Pettis, R. B. Wilson of Jefferson and C. A. Cole, of Franklin counties. The campaign will begin on November 18 and will continue two weeks with squads of speakers visiting the various counties where addresses will be made. The speaker's squads will be composed of one speaker from outside the state, one from within the state and a county superintendent. The speakers squads will spend three days in each county in an effort to interest the people in taking action for better rural schools.

The decision to engage in a campaign follows a survey made last winter of the rural schools of the state by representatives of the state teachers association and the State University at Columbia. The data secured in the survey will be given publicity in the campaign that is announced to be had in November.

THE MODEL CHURCH

HARMONY HEADS LIST OF RURAL INSTITUTIONS

NEW YORKER'S VERDICT

Dr. Barnes, Head of the Baptist Home Missions Board, Praises Work of Rev. Green and His Members

Harmony has added another to its long list of achievements. It has the distinction of heading the list of model rural churches of the country. Harmony was awarded the distinction following the visit last week of Dr. Barnes of New York, head of the Home Missions Board of the Baptist church.

Some months ago Dr. Barnes was assigned by his board to visit a number of rural churches throughout the country. He was given the names of a number of rural churches in as many different states, among them being Harmony, and at once started on his trip of inspection. Harmony was the last one visited and while Dr. Barnes did not give the names of the others he very promptly gave his opinion that the local church would come first in his report to the Baptist Home Mission Board when he returned.

While here Dr. Barnes was the guest of Rev. C. H. Green of Harmony and was given an opportunity to see something of the work being done by the church in the community and to learn to what a large part it had in the moral, religious, business and civic life of its members and of the people of the entire locality.

Dr. Barnes was unstinted in his praise of the work that has made Harmony an influence for good and for larger development along every line it has chosen to work and members of both the church and community are greatly elated over the verdict of approval bestowed by the New Yorker.

Georgia marketed 8,000 carloads of peaches this season.

MORE SCHOOL MONEY

BIG ANNUAL FINANCIAL MELON LARGER THAN EVER BEFORE

BE PAID IN SEPTEMBER

A Total of $2,359,034 Will Be Distributed Among the Various Counties —A State Aid Fund Also

Nodaway county schools will receive a larger sum from the state this year than was apportioned last year and in the rural districts an increase of three per cent, which will make the amount this year $16,877.62. The sum received here last year was $16,385.95. In addition to this sum there is an additional state aid fund from which the county received last year $3,224.80. This sum will also be increased this year.

State Superintendent of Schools Uel W. Lamkin, who announces the apportionment of public schools money for the year 1918, says the total of the big annual financial melon cut for distribution among the schools this year is larger than it ever was before in the history of this state. It is $2,359,034, which is $360,000 more than for 1917.

The apportionment is made on the basis of number of teachers employed and the number of days attendance in the school.

Disbursement of the big sum will take place in September.

Last year the City of St. Louis drew out of the state school fund $316,620.20 and this year will get $392,433.67, or $76,813.47 more.

St. Louis county got $41,729.56 last year and will get $53,220.47 this year.

Jackson county drew $172,779.76 in 1917 and will draw $208,975.57, or $36,195.81 more.

There is set aside out of the fund for the aid of country districts a total of $240,157 and state-aided high schools in rural districts will get three per cent more than they did last year.

CALL FOR NURSES STILL OPEN

Applications Into Student Reserve Class Still Going On at Red Cross Rooms

The time for enrollment in the Nurses' Student Reserve is still open and anyone desiring to register can obtain all necessary information at the Red Cross headquarters. Nodaway county's quota is fifteen and the registration is still short of that number.

The number making application has been just a little disappointing and it looks as if Nodaway might fall short in her number. Seventeen registered when the call was first made. Of this number one has entered a St. Joseph hospital training school and two others have left the county, putting their registration in their new home headquarters, which leaves the total number here less than it should be.

SAW CROWD AND CAME DOWN

Supt. Bert Cooper Witnesses Unusual Incident While Visiting the State Fair at Sedalia Yesterday

Prof. Bert Cooper is home today after two days spent at Sedalia where he attended a meeting of county superintendents and also found time to visit the state fair now going on. Mr. Cooper said that the fair was fully up to the standard of past years with unusually good attendance. Exhibits in the live stock department, he said, were large, while those in the agricultural department were fewer than last year due to the drouth and to the fact that the fair was held earlier this year than usual.

An unusual thing occurred yesterday at the fair, according to Mr. Cooper, when time came for the appearance of the government war plane announced on the program. When the hour arrived no word had been had from the flier and the management was in despair, when far overhead, just at the minute, appeared a giant plane. Circling over the field looking for a landing place the driver did a few stunts and came to earth in front of the grandstand. On reaching the airman and his machine it was learned that it was not the government plane promised, but that the airman in his flight across country from a western aviation field had sighted the big crowd and decided to stop and see what was going on. At last accounts the government plane had not appeared.

From Teacher to Banker.

Mrs. G. A. Chaney came over from Blockton, where she has been visiting, for a week's visit with relatives here. We are surprised to learn that Prof. and Mrs. Chaney are moving to Des Moines, the professor having given up teaching for a position with the Banker's Mortgage Co., in which he has an interest. Prof. Chaney has won for himself an honorable place among the educators of the country and in making the change gives up a splendid position with the Ames Agricultural College, where he has been counted one of its most capable instructors for several years past. — Hopkins Journal.

Seven Miles North of Albert the Huns Are Already Withdrawing Their Forces and Are Expected to Fall Back Behind Ancre

FRONTAL ATTACKS CEASED

Germans Flocking to North Bank of Divette River Leave Rear Guard Heavily Supplied With Machine Guns In Effort to Check Allied Advance

London, 3:45 p. m., Aug. 15. — The Germans have retired from one to two miles along the salient north of Albert and have also started withdrawing from Serre, seven miles north of Albert. The British are steadily going forward in that region and the Germans are believed to have evacuated Beaumont, Hamel, Puisleux and Bucquoy. Withdrawal from Serre may indicate that the Huns plan to fall back behind the Ancre in order to straighten their line. The French have taken Belval and Ribecourt.

London, 3:15 p. m., Aug. 15. — The German salient that bulged into the British lines in the Hebuterne sector north of Albert has practically disappeared, a Reuter correspondent at the front says. The Germans north of Ancre have withdrawn as far as Hebuterne, hotly pursued and harassed by the British, who are concentrating their pressure on the flanks.

The Allies are steadily wiping out the great salient created by the German drives between the Arras and the Aisne rivers between March 21 and June 9, and for the time being the big scale of the frontal attacks against the Germans between the Somme and the Avre rivers has ceased. Meanwhile the British are slowly encircling Albert, while the French are throwing a ring of bayonets around Lasigny, one of the two great key positions on the German left flank. In the Lasigny sector the Germans are flocking back to the north bank of the Divette river, leaving their rear guard heavily supplied with machine guns in an effort to check the French advance. The whole German front is wobbling with the Allies pressing closer and closer to Bray, Chaulnes and Roye. Violent cannonading has continued between the Avre and Oise rivers but no mention is made of any infantry action.

Paris, Aug. 15.—The German grip on five great key positions has been severely shaken overnight by successes of the Allies between the Arras sector and the Oise river. Albert, north of the Somme river, to which the Germans have been tenaciously clinging

since they captured it in their March drive, today is seriously menaced by a German retirement over a five mile front between Beaumont, Hamel and Bucquoy, while further south the British and French continue their steady advance on Bray, Chaulnes, Roye and Lassigny. The splendid success in the Oise valley, resulting in the capture of Ribecourt from the Germans, is imperilling the German line on both the western and eastern side of the Oise and has enabled General Humbert's army to approach within five miles of the German base at Noyon. Sequel To Love For Doll

Maternal Instinct Greatly Developed by Teaching Children to Love their Dolls.

The little child's doll is mother to the most romantic fairy. And in the years that pass, the doll fades into the petals of a June rose, to evolve the most wondrous of all transformations.

And now comes a more serious period when the joy of real motherhood should be as tranquil as best efforts can provide.

This is accomplished with a wonderful remedy known as Mother's Friend, an external application so penetrating in its nature as to thoroughly lubricate the myriad network of cords, tendons, nerves and muscles just beneath the skin of the abdomen.

It relieves the tension, prevents tenderness and pain at the crisis and enables the abdomen to expand gently. The muscles contract naturally after baby arrives and the form is thus preserved.

It should be applied daily, night and morning, during the period of expectancy. By regular use it enables the abdomen to expand without the usual strain when baby is born. Naturally, pain and danger at the crisis is less.

You will find Mother's Friend on sale at every drug store. It is prepared only by the Bradfield Regulator Co., Lamar Bldg., Atlanta, Ga. They will send you an instructive "Motherhood Book" without charge. Write them to mail it to you. Do not neglect for a single morning or night to use Mother's Friend. Obtain a bottle from your druggist today by all means, and thus fortify yourself against pain and discomfort.

ASSASSINATE GERMAN OFFICER.

Special to The Democrat-Forum.

Amsterdam, Aug. 15.—The assassination of Herr Von Sengbrush a German officer at Wenden, Russia, was reported from Riga today. The murderer escaped.

THIRTEENTH WIFE UNLUCKY

London, Aug. 15. — Thirteen wives proved unlucky for John Leslie Smith, arrested recently with his thirteenth spouse on charges of bigamy and larceny. Smith had been a soldier at the front, but deserted.

The couple was arrested on complaint of the twelfth wife, who charged bigamy aid the theft of her furniture. Smith was given seven years and Mrs. Smith XIII was given five months.

Police say Smith got his wives through want ads, and in most cases had left them destitute. c

BUSINESS MEN HONOR GUARD.

Wooster, O., Aug. 15.—Business men of this city have organized a guard of honor which will act as an escort to departing soldiers as they entrain for training camps. More than 400 business men have already joined the guard and each succeeding squad that leaves this city from now on will be given a fitting farewell.

OLDEST AVIATOR IS 45.

Mercer, Pa., Aug. 15.—The honor of being the oldest aviator in Uncle Sam's service is at present held by Lieutenant Otis Gilmore of this place. Gilmore is forty-five years of age and is a veteran of the Spanish-American war. He is at the Lake Charles school. His eighteen-year-old son is an enlisted man in the navy.

Rhodes-Nunnelly.

At a simply observed ceremony at eight o'clock last night at the home of the bride's mother, Mrs. E. J. Rhodes, 216 South Mulberry street, Miss Hazel Belle Rhodes became the bride of Byron W. Nunnelly. The ring ceremony was used by the Rev. C. Emerson Miller, pastor of the First Christian church who read the marriage lines. A niece of the bride, little Margaret Staples, of Burlington Junction, carried the ring in a lily. The home was attractively beautified with ferns and garden flowers. The bride wore a simple frock of white georgette crepe. Mr. Nunnelly and his bride left this afternoon on a honeymoon trip to Colorado and Oklahoma points after which they will be at home on the groom's farm west of the city. Mr. Nunnelly is a son of Mr. and Mrs. J. B. Nunnelly.

Hasty-Hagins.

Announcement has been made of the marriage on Sunday afternoon at Denver, Colo., of Miss Jean Corrine Hasty and Frank Donald Hagins of McCook, Nebr. The groom is a former Maryville boy and nephew of Mr. and Mrs. Newton Hagins of 314 East Seventh street. About a year and a half ago, in company with his uncle and aunt, Mr. and Mrs. William Wade Smith, he went to McCook to live. The newly weds will be at home at McCook, where Mr. Hagins has a good position with the Burlington railway.

Comfort, Usefulness and Economy

Both the Simmonds Oil Stove and the Detroit Vapor (oil or gasoline) are summer cook stoves away above the average in usefulness. If you have not bought a new stove this summer, or your old one is about ready to replace, it will pay you to get it now. Don't wait till next spring — they will be higher and harder to get then than ever.

This Winter's Heating Problem

should be solved now, and to get the most in comfort, convenience and economy, it should be solved with a good furnace. We have several styles of furnaces, and we want to talk to you about them. Come and see them and let us show you how we can install a furnace in your home at lowest cost and save you good money on your heating problem.

Intelligent Economy!

YOU may have to drive your car until the war is over, whether you want to or not. The first essential, therefore, is to give it the best of care.

Everything about an automobile is secondary to the engine—when that gives out the car is junk.

The best way in the world to preserve your motor is to

Use

Red Crown Gasoline

It imparts to the piston a steady driving pressure that gives smooth, rhythmic power—and lots of it.

Red Crown Gasoline is made especially for the modern internal combustion engine, and for that purpose only.

Its chain of boiling point fractions is perfect, commencing at about 95 degrees Fahrenheit and continuing without a gap beyond 400 degrees, each fraction vaporizing at a different temperature, developing the correct amount of explosive energy for speed, power and quick get-away.
